GRIGG™ S K-BALANCE™

0-0-24

GRIGG™ S K-Balance™ Advantages

- S K-Balance combines calcium and potassium in a greens grade granule to strengthen and protect turf from environmental stresses and heavy use.
- Calcium is derived from gypsum (CaSO₄). First choice in calcium amendment options when soil pH is greater than 7.0, or excess carbonate is present.
- Can be applied monthly as management tool to maintain optimum potassium and calcium content and consistency in the profile.
- S K-Balance is one-half micronized gypsum ground to a tiny particle size that can pass through 200 mesh.
- S K-Balance is one-half sulfate of potash in its purest, natural form. It is harvested from solar evaporation ponds.
- Nutrient release and subsequent plant uptake determined by microbial activity and will vary based on soil moisture, temperature, pH, and turfgrass species

Guaranteed Analysis

Soluble Potash (K ₂ O).....	24.0%
Calcium (Ca)	11.0%
Total Sulfur (S)16.0%
16% Combined Sulfur	

Derived from sulfate of potash, gypsum.

Application and Use

Fairways:

3-4 lbs. / 1000 sq ft (15-39 g/m²)
134-348 lbs / acre (150-390 kg/Ha)

Greens:

3-4 lbs. / 1000 sq ft (15-39 g/m²)
134-348 lbs / acre (150-390 kg/Ha)

Always water in thoroughly after application to help speed up breakdown.
