

GRIGG™ IRON CHELATE 4.7%

Foliar Chelate

GRIGG™ Iron Chelate 4.7% is an organic chelate that is biodegradable and has a high stability constant.

It is part of the GRIGG™ Proven Foliar® nutrient product line, which is designed for foliar application and complete foliar absorption while drying on the target plant.

Iron Chelate 4.7% Advantages

- Iron is a component of many enzymes, and is required for chlorophyll formation, nitrogen fixation, and nitrate reduction.
- Micronutrients are a foliar absorbed source that will boost nutrient levels in any program.

Application and Use

Apply 1-6 fl oz per 1000 sq ft (3-20 L/Ha). Repeat as needed.

Turfgrass:

With severe deficiency use the highest rate of application.
