

GRIGG®

FAIRPHYTE®

RATE RECOMMENDATIONS FOR PROFESSIONAL USE ONLY

To prevent or correct nutrient deficiencies, apply GRIGG FAIRPHYTE as a foliar spray early in the morning or late afternoon. Allow 3-6 hours for drying time before irrigation. Best to apply after mowing.

Cool or Warm Season Grasses: Apply 3-4 fl oz per 1,000 sq ft or 1-1.25 gal per acre [10-13 L per hectare] as needed every 14 days.

Make frequent applications at lower rates, or apply higher rates at times of greater plant demand. Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.

MIXING AND HANDLING INSTRUCTIONS

Agitate before use. For foliar applications, apply in 1-2 gal of water per 1,000 sq ft (44-88 gal of water per acre) [400-800 L of water per hectare]. Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

ATTENTION: This product contains phosphites and may be phytotoxic to plants. Phosphite is not a source of plant available phosphorus. Do not use if the plants or soil/growing media is deficient in plant available phosphate. Based on soil/growing media conditions, and nutrient requirements of the plant(s), the use or misuse of phosphites may trigger a phosphate starvation response (restrict a plant's uptake of phosphate).

Net Contents: 2.5 gallons (9.46 liters)

Density: 12.1 lb/gal @ 68°F
Net Weight: 30.0 lb (13.6 kg)

|--------------------------------------------------------|-------|
| Total Nitrogen (N) | 1.0% |
| 1.0% Urea nitrogen | |
| Total Phosphate (P ₂ O ₅) | 27.0% |
| Soluble Potash (K ₂ O) | 25.0% |
| Derived from urea and potassium phosphite. | F76 |

*Phosphorous acid products are for use as a supplemental fertilizer treatment.

*Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or will be used directly by plants, as phosphite ions.

*As a soil application to annual crops, a lesser response from initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds of roots zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.

GRIGG Proven Foliar® is the turf grass industry's premier foliar nutrient line backed by years of innovation, research and proven results.

Research Driven,
Proven Results®

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

In Virginia, this lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the container or label.

Precautionary Statements: Based on currently available data, this product is not classified as a GHS hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.
