

# GRIGG®

# SK-BALANCE™

## RATE RECOMMENDATIONS FOR PROFESSIONAL USE ONLY

To prevent or correct nutrient deficiencies, apply GRIGG SK-BALANCE after mowing and water in thoroughly after application to help speed up breakdown. DO NOT drag this product into aeration holes. DO NOT apply to wet turf.

**General Maintenance of Cool and Warm Season Grasses:** Apply 3-6 lb per 1,000 sq ft or 131-261 lb per acre [1.5-3 kg per 100 sq m or 146-292 kg per hectare] as needed.

Make frequent applications at lower rates, or apply higher rates for greater plant demand. Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.
